

Marie-Laure MUIRAS

Marie-Laure MUIRAS gained her PhD in molecular biology in 1997 from the University Pierre et Marie Curie (Paris, France). In 2005, she completed an Executive MBA at Durham Business School (Durham, UK).

During her career, she developed and managed international R&D programmes within the public and private sectors in the life science arena. She worked at the Foundation Jean Dausset-CEPH (Paris, France), in the R&D laboratories of L'Oreal (Clichy, France), and at the German Cancer Research Centre (Heidelberg, Germany). For the past 8 years, Marie-Laure MUIRAS has worked with two of the most prestigious Research Institutes at Newcastle University (Newcastle, UK). In the UK, she led various projects in knowledge transfer, collaborative research and R&D funding strategy, while continuing her long-standing involvement in the European Union's Framework Programme (FP) for research and technological development.

Recently, she joined ACIES as Program Director in the Research Projects and Networks Unit to develop its business internationally in the life science arena.

Marie-Laure MUIRAS is member of the European Community Project Managers' Association (ECPMA) and was member of the Steering Group from November 2007 to December 2008.
