

Dr. Michael Lutz,
General Manager of Cogenics
PGx Health/Epidauros

Dr. Michael Lutz came to Clinical Data Inc., a NASDAQ listed biotech company in August 2007 following the acquisition of Epidauros where he served as Chief Executive Officer since April 2006. Dr. Lutz became Global General Manager of Cogenics, the service division of Clinical Data, in November 2007 and was also appointed as Senior Vice President Pharmacogenetic Partnerships of PGxHealth USA, the diagnostic division of Clinical Data.

Mr. Lutz brings to Clinical Data broad experience in the biotech and pharma industry from working with several industry leading companies in senior management positions. In these roles he primarily focused on commercial and strategic aspects of both, drug discovery and development. Before joining Epidauros, he was Chief Executive Officer at SuNyx GmbH, where he successfully sold the Bioanalytics Business to QIAGEN. Before that he worked at Evotec AG, finally as Chief Business Officer for their Discovery Programs Division. In addition, Mr. Lutz worked with Novartis Pharma AG in leading positions in Global Marketing and Strategic Planning. Mr. Lutz studied chemistry and biochemistry at the Universities of Konstanz (Germany) and Grenoble (France). He holds a Ph.D. degree in Bioorganic chemistry from the ETH Zürich (Switzerland).
